Subject: Gold Butterfly Field Trip

Tami Sabol, the Stevensville District Ranger, has rescheduled the field trip to the Gold Butterfly Project Area for June 28 from 2:00 until 7:00 in the evening! We will be leaving the Supervisors Office in Hamilton (1801 N. 1st in Hamilton) at 2:00 in the afternoon and plan to return by 7:00. Please bring water, a snack if you'd like, and wear comfortable clothes and shoes suitable for hiking in the forest. Be prepared for all types of weather! Transportation will be provided as parking is limited.

We will visit predetermined locations to address public concerns that have arisen during the collaborative process. Field trip stops will focus on:

- Water quality
- Fisheries
- Road improvements to reduce sediment runoff
- Stand conditions and potential treatments
- Road relocation and construction

The Forest Service will provide vans so please contact Marilyn Wildey (406-363-7101-leave a message if no answer, or mwildey@fs.fed.us) by June 23th to reserve your place in the van. If there is more demand than capacity, a second field trip will be scheduled.

Thanks you,

Marilyn Wildey
